

Prof. Dr. Wafa Hussein Nasser Fadaaq

Member of the Board of Trustees

Digital Transformation, Artificial Intelligence & Cybersecurity Expert

Biography

- Prof. Dr. Wafa Hussein Nasser Fadaaq is an accomplished academic, technology specialist, and higher education professional with extensive experience in computer science, information technology, artificial intelligence, cybersecurity, quality management, and technical education.
- She holds a Ph.D. in Computer Science from Management and Science University (Malaysia), with research focused on Artificial Neural Networks (ANN) and predictive analytics. Her doctoral work explored the application of artificial intelligence models in forecasting and decision support systems, reflecting her long-standing commitment to innovation and emerging technologies.
- Over the course of her distinguished career, Dr. Fadaaq has served in academic, training, and leadership positions across universities, colleges, and technical institutions in the Kingdom of Saudi Arabia. She has taught a broad range of subjects including Artificial Intelligence, Data Mining, Business Intelligence, Database Systems, Information Systems, Programming, E-Commerce, Network Systems, and Information Security.
- In addition to her academic expertise, she possesses internationally recognized certifications in Cybersecurity, Information Security, Risk Management, Quality Assurance, Occupational Health and Safety, and Institutional Compliance. Her multidisciplinary background enables her to contribute strategically to digital transformation, institutional excellence, and technology-enabled education.
- As a Member of the Board of Trustees of STARDOM University, Dr. Fadaaq provides valuable expertise in innovation, digital transformation, artificial intelligence integration, academic technology, and future-ready education.

Areas of Expertise

- Artificial Intelligence
- Digital Transformation
- Cybersecurity
- Information Technology
- Data Analytics
- Business Intelligence
- Information Systems
- Quality Assurance
- Risk Management
- Higher Education Innovation
- Educational Technology
- Academic Leadership

Academic Qualifications

- Ph.D. in Computer Science, Management and Science University (Malaysia)

- Master's Degree in Information Technology
- Bachelor's Degree in Computer Science, King Abdulaziz University, Saudi Arabia

Professional Highlights

- University Lecturer and Academic Trainer in Information Technology and Computer Science
- Instructor in Artificial Intelligence, Data Mining, Business Intelligence, and Information Systems
- Academic Leader in Technical and Higher Education Institutions
- International Reviewer for Scientific Research and Academic Publications
- Contributor to technology-focused education and workforce development initiatives

Professional Certifications

- Cybersecurity
- Information Security
- ISO 31000 Risk Management
- ISO 45001 Occupational Health & Safety
- ISO 9001 Quality Auditing
- OSHA & NEBOSH International Certifications
- Occupational Health & Safety Leadership Certifications

Strategic Vision

Dr. Wafa Fadaaq believes that the future of higher education lies at the intersection of artificial intelligence, digital innovation, and human-centered learning. Her vision focuses on advancing technology-enabled education, strengthening cybersecurity awareness, promoting data-driven decision-making, and preparing graduates with the digital competencies required for the rapidly evolving global economy.

She advocates for building resilient, innovative, and globally connected educational institutions capable of driving sustainable development and technological advancement.
